

The Window & Door Guide

Why You Can Trust Pella

We are proud to be the most preferred window and door brand by homeowners.¹

Rated #1 by homeowners for highest quality¹

We make products specifically for you and your comfort with meticulous care and attention. And it doesn't stop there. Our product designs are tested to extremes, so you can trust them to perform. Door designs are opened and closed 100,000 times, and hung and casement window designs are tested at least 6,000 times.

Rated #1 by homeowners for highest craftsmanship¹

We are continually striving to improve what we do and how we do it. That drive has earned us 150 patents and counting for amazing innovations. In 1925 we opened our doors with the patented Rolscreen® retractable screen, a time-tested innovation that is still one of our most desired features today.

Backed by some of the strongest limited lifetime warranties

You can feel confident in your investment. We pride ourselves on providing exceptional quality, exceeding expectations and going beyond requirements. That's why we stand behind our windows and patio doors with a limited lifetime warranty.²

¹ Study of homeowner perceptions of leading national brands. Study commissioned by Pella, 2023.

² See written limited warranties for complete details, including exceptions and limitations, at pella.com/warranty, or contact Pella Customer Service.

Select Your Ideal Material

Windows and Patio Doors

CLAD-WOOD

Enjoy the beauty and warmth of natural wood, our most customizable designs and exceptional energy efficiency. Our innovative EnduraGuard® wood protection provides advanced protection against the effects of moisture — helping to provide years of performance.

FIBERGLASS

Windows and patio doors ready to handle virtually anything life throws at them. Pella's proprietary fiberglass material is the strongest material for windows and patio doors, engineered for lasting durability.* It's tested to withstand the most extreme heat and cold, damaging UV rays and conditions of seacoast environments.

VINYL

When you want low maintenance, energy efficiency and affordability, vinyl is the right choice. Our unique vinyl formula is tested for excellent weathering, durability and color retention. And multi-chambered frames and metal-reinforced interlocking sashes add strength.

Pella® Entry Doors

FIBERGLASS

Appreciate the warm, rich look of wood or a prefinished smooth panel with the low-maintenance benefits of fiberglass. These doors have dent-resistant panels and a rot-resistant frame.

STEEL

Create a lasting impression with Pella's steel entry doors. They provide a quality appearance to your home that's easy to maintain, while giving you extra durability.

* Pella's proprietary fiberglass material has displayed superior strength over wood, vinyl, aluminum, wood/plastic composites, and other fiberglass materials used by leading national brands in tensile and 3-point bend tests performed in accordance with ASTM D638 and D790 testing standards.
